

# IFRA Conformity Statement

Issue Date: 16 February 2026

## IDENTIFICATION OF PRODUCT

Product Identifier	XC1757
Other Identifiers	MULLED CHAUD
Intended Use	Fragrance compound for manufacturing purpose
Supplier Details	The Mombati Company Building 28, 7-9 Percy Street AUBURN NSW 2144 AUSTRALIA
Telephone	+61 2 8074 1877
Email	<a href="mailto:global.rcps@mombati.com.au">global.rcps@mombati.com.au</a>

The above compound is in compliance with the Standards of the International Fragrance Association (IFRA) up to and including the 51st Amendment to the IFRA standards, (published 30 June 2023), provided it is used in the following category/categories at a maximum concentration level of:

IFRA Categories (*)	Maximum Level of Use (%)
Category 1	Not Suitable
Category 2	1.9200
Category 3	1.7500
Category 4	20.5800
Category 5A	9.1900
Category 5B	0.9000
Category 5C	3.5500
Category 5D	0.3000
Category 6	Not Suitable
Category 7A	1.7500
Category 7B	1.7500
Category 8	0.3000
Category 9	8.1400
Category 10A	8.1400
Category 10B	51.4600
Category 11A	0.3000
Category 11B	0.3000
Category 12	100.0000

GHS Product Identifier: XC1757 Fragrance

# IFRA Conformity Statement

Issue Date: 16 February 2026

(\*) See annex for definition of combined IFRA categories.

\* Note: The maximum level of use is NOT a suggested dosage level, rather the maximum allowed usage level in order to comply to IFRA standards

IFRA compliance above was assessed according to the IFRA standards and to IFRA Section 6 for general safety assessment.

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the Research Institute for Fragrance Materials (RIFM) and are enforced by the IFRA Scientific Committee.

IFRA standards are set per product category, each covering a range of product types which can be grouped together based on risk assessment considerations. Groupings have been derived with the new approach of combining the QRA2, photo- toxicity and systemic toxicity assessment.

The target of the RIFM Safety Assessments is humans and their safety while handling the finished consumer products. The categorisation of some product categories such as pet products; only relates to the human exposure during the application of such products, not to the exposure of the product on the pet. As a consequence, the assessment of safety of such finished consumer products with regard to animals is outside the scope of IFRA/RIFM and is the responsibility of the manufacturer.

It is the ultimate responsibility of our client to ensure the safety of the final product (containing this fragrance/flavour) by further testing if need be.

The creative perfumery procedures in Mombati Fragrances ensure that Fragrance compounds are composed only of ingredients approved by the safety clearance procedure, and satisfy, according to the current state of knowledge, the safety requirements for the intended application under normal and reasonably foreseeable conditions of use.

## Regulatory Compliance & Product Safety, Fragrance & Beauty

This document is generated by calculation based on data for ingredients.

The data in this document has been prepared by Mombati in accordance with Mombati's internal protocols and procedures in order to evaluate characteristics and/or performance. Information provided in this document is based on intentional addition of a substance or analytical assessment for presence of regulatory controlled chemical targets where applicable. Trace constituents or contaminants from a raw material manufacturing process are provided where there is a regulatory requirement to declare information. The information contained herein is, to the best of Mombati's knowledge, true and accurate at the time it is given. It is provided to Customer for its information and internal use only. Mombati is not liable for any damages that may result from the misuse of the data. All information in this document is subject to change without prior notice. While the information has been formulated with care, we do not warrant or represent that it is free from misdescription, error or omission. It is the Customer's responsibility to perform its own evaluations on the material evaluated herein, including with respect to end-use applications. Any Customer product, marketing or other claims are Customer's sole responsibility.
