

IFRA Conformity Statement

Preparation Date: 16 September 2021

IDENTIFICATION OF PRODUCT

GHS Product Identifier	XC1063
Other Identifiers	BANANA PUBLIC
Intended Use	Fragrance compound for manufacturing purpose
Supplier Details	The Mombati Company Level 1, 5 George Street NORTH STRATHFIELD NSW 2137 AUSTRALIA
Telephone	+61 2 8074 1877
Email	global.rcps@mombati.com.au

The above compound is in compliance with the Standards of the International Fragrance Association (IFRA) up to and including the 50th Amendment to the IFRA standards, (published June 2021), provided it is used in the following category/categories at a maximum concentration level of:

IFRA Categories (*)	Maximum Level of Use (%)
Category 1	Not Suitable
Category 2	2.0000
Category 3	1.0600
Category 4	10.1600
Category 5A	5.3200
Category 5B	1.0600
Category 5C	1.5400
Category 5D	0.3400
Category 6	Not Suitable
Category 7A	1.0600
Category 7B	1.0600
Category 8	0.3400
Category 9	3.1400
Category 10A	3.1400
Category 10B	10.1600
Category 11A	0.3400
Category 11B	0.3400
Category 12	100.0000

GHS Product Identifier: XC1063 Fragrance

IFRA Conformity Statement

Preparation Date: 16 September 2021

(*) See annex for definition of combined IFRA categories.

* Note: The maximum level of use is NOT a suggested dosage level, rather the maximum allowed usage level in order to comply to IFRA standards

IFRA compliance above was assessed according to the IFRA standards and to IFRA Section 4 for general safety assessment.

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the Research Institute for Fragrance Materials (RIFM) and are enforced by the IFRA Scientific Committee.

Section 4 mandates that ingredients in fragrances should only be used when, based on appropriate information and evaluation, it has been concluded they do not present an unreasonable risk to human health and the environment and are safe under their intended conditions of use.

It is the ultimate responsibility of our client to ensure the safety of the final product (containing this fragrance/flavour) by further testing if need be.

The creative perfumery procedures in Mombati Fragrances ensure that Fragrance compounds are composed only of ingredients approved by the safety clearance procedure, and satisfy, according to the current state of knowledge, the safety requirements for the intended application under normal and reasonably foreseeable conditions of use.

Regulatory Compliance & Product Safety, Fragrance & Beauty

This document is generated by calculation based on data for ingredients.

The data in this document has been prepared by Mombati in accordance with Mombati's internal protocols and procedures in order to evaluate characteristics and/or performance. Information provided in this document is based on intentional addition of a substance or analytical assessment for presence of regulatory controlled chemical targets where applicable. Trace constituents or contaminants from a raw material manufacturing process are provided where there is a regulatory requirement to declare information. The information contained herein is, to the best of Mombati's knowledge, true and accurate at the time it is given. It is provided to Customer for its information and internal use only. Mombati is not liable for any damages that may result from the misuse of the data. All information in this document is subject to change without prior notice. While the information has been formulated with care, we do not warrant or represent that it is free from misdescription, error or omission. It is the Customer's responsibility to perform its own evaluations on the material evaluated herein, including with respect to end-use applications. Any Customer product, marketing or other claims are Customer's sole responsibility.
