Binjiang District, Hangzhou,  
China

**PERFUME NAME: Spring time**  
**PERFUME CODE: FS318427**

This certificate provides information on the compliance of the above mentioned fragrance oil according to the latest fragrance safety Standards of the International Fragrance Association (IFRA).

## 1. Maximum permitted concentration in the final product (% w/w)

For each class of final product, quantitative limits are indicated (if any apply). These result from the presence of substances listed in section 2.2. These limits may not be valid if our fragrance oil is used in conjunction with other materials that also contain these restricted substances. The total concentrations in the final product of all restricted substances should be taken into account when determining the maximum concentration permitted by IFRA.

<u>Class (see Appendix)</u>	<u>48th Amendment</u>	<u>47th Amendment</u>
1	Not Permitted	Not Permitted
2	8.49%	8.49%
3A	16.99%	16.99%
3B	16.99%	16.99%
3C	16.99%	16.99%
3D	16.99%	16.99%
4A	16.99%	16.99%
4B	16.99%	16.99%
4C	16.99%	16.99%
4D	16.99%	16.99%
5	16.99%	16.99%
6	Not Permitted	Not Permitted
7A	16.99%	16.99%
7B	16.99%	16.99%
8A	16.99%	16.99%
8B	16.99%	16.99%
9A	16.99%	16.99%
9B	16.99%	16.99%
9C	16.99%	16.99%
10A	16.99%	16.99%
10B	16.99%	16.99%
11	No Restriction	No Restriction

Please note that in some cases a fragrance oil can be banned only in classes 1 and 6 while it is limited or free of use in other classes. This is due to the presence of one or several ingredients that are not Generally Recognized As Safe (GRAS). These will not be indicated in section 2.1

## 2. Ingredients that are banned or limited by IFRA

Section 2.1 lists ingredients that are banned by IFRA either because they are banned outright or because they contain constituent substances (components of natural complex materials or impurities in synthetic fragrance materials) that exceed purity limits set by IFRA.

Section 2.2 lists ingredients or substances that are restricted by IFRA. In cases where section 2.1 indicates that the fragrance oil is banned by IFRA, we are still providing information on ingredients and substances that are subject only to quantitative limits as these may determine the limits of compliance once the banned ingredient has been removed.

For further information on the IFRA standards relating to these ingredients, they can be found on [www.ifraorg.org](http://www.ifraorg.org) or by request from us.

## 2.1. Ingredients banned by IFRA

**NONE**

## 2.2. Ingredients and substances subject to limitations by IFRA

<u>Name</u>	<u>CAS #</u>	<u>QTY in the fragrance oil</u>	<u>Amendment</u>
ALPHA-AMYL CINNAMALDEHYDE	122-40-7	0.0033 %	47
ALPHA-HEXYL CINNAMALDEHYDE	101-86-0	5.2458 %	47
BENZYL ALCOHOL	100-51-6	0.0004 %	42
BENZYL BENZOATE	120-51-4	0.0062 %	42
CITRAL	5392-40-5	0.0001 %	47
FARNESOL	4602-84-0	0.3376 %	40
GERANIOL	106-24-1	0.0004 %	42
METHYL OCTINE-CARBONATE	111-80-8	0.0118 %	43

## 3. Substances, which may have some potential to form nitrosamines in the presence of nitrosating systems

**NONE**

Please contact us for clarification or in case any restrictions are potentially problematic for compliance.

This is an electronically generated document, which is valid without signature.

## APPENDIX

Class	Description
-------	-------------

- 1** Lip products of all types (including lip creams containing sunscreen), toys, similar products (requiring compliance with ingestion-safety considerations)
- 2** Deodorant and antiperspirant products of all types including any product with intended or reasonably foreseeable use on the axillae or labelled as such (spray, stick, roll-on, under-arm, deo-cologne and body spray, etc.), Fragranced bracelets
